

## ANNOUNCEMENT

### **Announcement on the restoration of damages at the Electricity Distribution Network due to the fires in Evoia and the Peloponnese**

HEDNO continues to release updates for the public by announcing that all its forces are working extremely hard for the restoration of the massive damages that were caused at the Electricity Distribution Network across the country by the destructive fires.

More specifically, in the area of Northern Evoia, where fire and resurgence are still ongoing, causing new damages to the Medium and Low Voltage Networks, reconnection was successfully delivered for Gouves, Artemisio and Kastri, while efforts are still being made for restoring supply for the largest part of Agia Anna.

There still are problems for approximately 7,000 residents at the Municipalities of Limni-Mantoudi-Agia Anna and Istiaia-Aidipsos.

In the area of Peloponnese and Sterea Ellada, the following areas have been reconnected to electricity:

In the Fokida Regional Unit, at all afflicted areas.

In the Messinia Regional Unit, at all afflicted areas, except a few individual cases.

In the Ileia Regional Unit, the entire Municipality of Archaia Olympia, less Nemouta and Pefki.

In the Lakonia Regional Unit, the entire Municipality of Eastern Mani, excluding the following locations: Sidirokastro, Myrsini, Lygera, Konakia, Polyaravos, part of Agios Vasileios and Platanos. The major pump stations have been also been reconnected.

In the Arkadia Regional Unit, works are continuing, while the villages of Isari, Vasta of the Municipality of Megalopoli and Rachi, Chora and Lykochori of the Municipality of Gortyunia are still disconnected.

Restoration works are progressing at all areas that have been afflicted by the fires.
